General Meetings

We are currently looking at how we can increase attendance at our General meetings now restrictions have been lifted. Last month we held a Jubilee themed General meeting, we also had guest speakers Jayne Salter Scott and Paul Hazel who gave a presentation about the new Metro Hospital in Smethwick and how it will affect established hospitals like City and Sandwell.

Here are some pictures of the meeting and Jubilee room decorations

The next General meeting will be on 19th July, why not come and join us and meet up with other Sandwell tenants and residents and find out what's going on in the Borough .

Do you have any suggestions for future speakers?

Do you have any issues that stop you attending?

Can we help or reassure you in anyway?

Congratulations.....

Well done Norma and the team !!!

Tenant & Leaseholders Scrutiny Group

The new Tenant and Leaseholder Scrutiny group held their first meeting on Saturday 4th December. Since then, the group have met on a total of 8 occasions and developed rapidly into a cohesive and supportive group.

They have developed their Terms of reference, Code of Conduct and Standing Orders, appointed a Chair and 2 Vice Chairs and agreed a nominee to the Safer Neighbourhoods and Active Communities Scrutiny Panel (SNACS).

They received presentations on the SMBC Housing service from senior officers, and from these presentations narrowed down 7 areas they wished to look at further. They then received presentations from the key SMBC officers in these 7 areas.

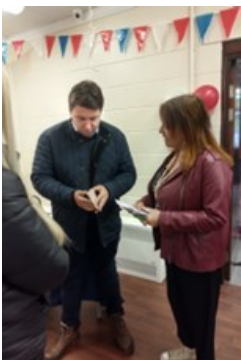

During May the group had 3 intense sessions on consecutive Saturdays, the first of which was attended by Gillian Douglas, Director of Housing who gave an overview of her role and was available to answer questions from the group.

These 3 sessions were specifically looking at the scrutiny process, and in the second of these sessions the group chose the 4 areas they wished to scrutinise over the subsequent 12 months. These are Call Centres, Home Checks, Building Management and Responsive Repairs.

In the final session, the group scoped out how they would scrutinise their first topic – Call Centres, and decided on which methods they would use to test the service. Going forward, the group will be meeting regularly every month with additional meetings where required as agreed as part of their work programme. They certainly have a busy year ahead, and are looking forward to providing reports and recommendations to the SNACs panel.
